## Designed to Make Your Show Experience Better, Faster, Smarter

All ShowSpan exhibitors can use LeadGen, the EventsPass lead retrieval tool. LeadGen allows exhibitors to scan visitor tickets, saving registration data to their own leads database.

### HOW DOES IT WORK?

1. All visitors have a registered ticket with them at the show.
2. Exhibitors, using their own device\*, install the LeadGen™ app, and log-in to their EventsPass account.
3. You, the exhibitor, identifies an interested customer/quality lead and invites them to scan their ticket barcode into the app on your device.
4. The customer scans their ticket and their basic details (name, email and contact number) are saved to your database. Any custom questions you've created will pop-up on screen before submitting.

\* Apple (iOS 9 or later) or Android. Rental devices available.
